

Surrey Rifle Association – Ammunition Reloading Course

The Surrey Rifle Association are pleased to announce the hosting of our Ammunition Reloading Course at the SRA Clubhouse - National Shooting Centre, Bisley.

The aim of the course is to provide SRA shooting-category members with the ability to safely and competently reload their own .308 calibre ammunition from cases and components.

For details of when this course is scheduled during the year, and how to book yourself on it, please see our website at www.surreyra.org

Agenda for the day

08:30 – 12:30 (morning session)

- Introductions & overview of the course
- Benefits of reloading
- Terminology, measurements & ballistics
- Safety & SAAMI specifications
- Reloading components
- Reloading equipment
- The process – theoretical
- The process - practical

During the morning session participants will meet at the Surrey Rifle Association clubhouse for breakfast and introductions. The course consists of theoretical and practical sessions, and is very much a 'hands on' experience.

12:30 – 14:00 (lunch break)

Participants & SRA instructors will have lunch in the Surrey clubhouse

14:00 – 17:30 (afternoon session)

- The process - practical (continued)
- Ballistics & proof-testing requirements
- Practical load testing (live fire test range)
- Tea break
- Questions
- Summary & wrap-up

The afternoon session enables participants to complete the remaining practical reloading part of the course, and then live-fire some reloaded ammunition to test the ballistic properties thereof.
